

## **TESTIMONIALS**

Wonderful service! We've just put our Spaniel puppy's, Milo & Spot onto Raw and they love it. Being able to collect from a pub is also an added bonus! Would recommend Gnaw It Raw Pet Foods to anyone.

Adam & Amie – Shropshire

Both our Weimaraner and Greyhound transitioned onto raw beautifully, and both at the age of 8. Their coats are much softer and glossier, their breath is fresh and their teeth are much cleaner. A huge thank you to Kevin at Gnaw It Raw for helping us make the switch.

Mrs J Chance-Hill. Kingswinford

A difficult transition from processed to raw, but Sydney is now much happier and healthier. Can't believe we didn't do this sooner!

Mrs R Silverwood. Shropshire

Raw makes so much sense. Why isn't it promoted more by the vets? Our Bichon is a different dog, for all the right reasons.

Mr R Pugh. Staffordshire

George, our 4 year old retriever, was constantly scratching and was clearly uncomfortable. After putting him on raw this soon stopped!

Mr J Atkins. Shropshire

Benson absolutely loves raw!!!!

Millie. Wolverhampton

We've always fed our dogs raw and fully understand the benefits. We're so glad that we now have a local supplier. Thank you Gnaw It Raw. Keep up the good work and spread the word!

D. Birch. West Midlands

After years of stomach problems and chemical treatments, our beloved German Sheppard seems to be cured thanks to BARF feeding. Would recommend to anyone.

Mr Stevens. Wombourne

Archie's teeth are like a Hollywood superstar's. Glistening white at the age of seven. All thanks to raw bones.

Joan Martin. Coalport Shropshire
